FLY A MENACE SAYS HEALTH OFFICER

Warns Against Purchasing Foodstuffs Where They Are Tolerated

FILTH BREEDS FLIES

Animal and Vegetable Waste Are Excellent Breeding Places Fly Direct and Deadly Carrier of Disease

The fact that flies are present, indicates dirt and filth, says the Health Officer Foulk's. The few flies that hibernate over the winter season, come out early in the spring and soon begin to look up a manure pile, or heap of decaying animal or vegetable matter or any other filthy accumulation accessable, in which they may deposit their eggs. They must have such a place in order that the eggs can develop and hatch out the larvae, which in turn must have suitable food so they can grow and finally change into perfect flies, ready to deposit their eggs in turn and start another breeding cycle. During warm weather, a generation of flies can be produced in from 9 to 12 days. There can be about 9 or 10 generations during the summer breeding season in this latitude. It would thus be possible for one female fly, starting May 1st to produce 5,500,000,000,000 flies by the end of September! But keep in mind the fact that flies must have filth in which to breed. Hence if there was no filth about, there would be no flies. It can thus be readily seen that the solution of the fly question is entirely in our own hands.

If we permit manure piles, garbage and other animal and vegetable waste to lay about our premises, we not only furnish breeding spots, but attract the flies from other sections. The fly is the most direct and deadly carrier of disease germs known. The wings, body, legs and feet of a fly are covered with countless thousands of minute hairs. Disease germs of all kinds, particularly the typhoid germs, adhere to these hairs when the fly is walking over or feeding upon human filth. As high as 6,600,000 disease germs have been found upon the body of a single fly, while its intestines contained 28,000,000! This being the simple truth easily proved in the laboratory, it is not hard to understand why the fyl is a deadly menace to the public health.

Remember the same fly you see crawling over your bread, pie, cake or other food, or even the lips of your helpless baby, may have been feeding upon human filth only a few minutes before it entered your house!

Every fly you destroy now, actually means the destruction of countless thousands. Kill the first flies before they can breed. Don't permit any trash, garbage or filth of any kind to lay exposed. In other words, don't furnish either food or breeding places for flies, and see that your neighbor don't. Screen your house. Keep your food covered. See that the store you deal with takes all possible care in protecting the food he sells you.

Carefully wash all foodstuffs that have been handled by others. Wash the lips of the milk bottle before you open it.

Remember that all food and drink is liable to contamination until it is actually placed in your mouth. Keep this fact constantly in mind from the time you start out to purchase your supplies, until they are placed upon the table for the family meal.

Keep your place sanitary at any cost for it means health, happiness and comfort. Dirt and filth means disease, death and destruction.

A poor quality of food is dear at any price. Better get the best, even if you have to purchase less. But remember that even good food improperly handled and not protected from contamination, is worse than poor food carefully handled and protected. The summer brings food and drink-borne intestinal diseases, so guard well your supply. Your health department is doing its utmost along these lines, but you must co-operate with us.

WILL ORGANIZE BAND

All Who Can Play Band Instruments Invited to Meeting Friday

A band to be known as the Alexandria Citizens Band and will be organized at a meeting to be held at 8 o'clock next Friday night on the third floor at 114 South Fairfax street.

Every person who can play a musical instrument is invited to come and join the band.

The promoters of the movement feel confident that a sufficient number of men can be obtained from the various persons who formerly composed bands in this city to form an up to date band.

Alexandria certainly should have a band. There is hardly a city of its size in the state that does not support a band.

The American Indian Guard and the Holy Name Band were formerly in evidence in Alexandria, but they some time since disbanded and the last to go was the Indian Guard Band which later became affiliated with a band in Clarendon, operating under the name of the Clarendon Band. With the musicians in the city, some of whom have never been identified with any band, Alexandria certainly should be able to organize a band that will be a credit to the city, and the Gazette extends to the proposed new band best wishes for success.

A GLOOMY OUTLOOK

With the winter's wheat crop promising a yield of 248,000,000 bushels less than last year, and the Government warning the public that nearly all of the old wheat now in stock is of inferior grade and of low milling quality, and indications pointing to reduced acreage of spring wheat, the country needs to be aroused quickly to the danger of an inadequate food supply says the Manufacturers' Record, which prints practical articles on present conditions. "With new potatoes selling in Florida at $19 to $20 a barrel, or three times what was formerly considered a good price, we must look more to home garden as an aid to the nation's food supply. And the sooner the country understands this situation and its danger the better it will be for us.

"In all human probability we shall next winter see a congestion of railroad traffic worse than we had last winter, because the railroads will then be no better prepared to handle traffic than they are now. They cannot get ready before next fall for any large increase in business. Everything which can be handled this spring and summer should be transported at the earliest moment possible. Every private family and every factory which can stock up with coal this spring and during the early summer should do so.

"There will be many families and many factories next winter which will be short of coal, and the railroads will be blocked and unable to deliver it, and the mines will be unable to produce it.

"With a steady demand from all consumers with a view to supplying next winters needs, the mines could be kept in regular operation during the spring and summer, and the railroads, hampered as they are, would in all probability be able to handle it. Anyone who puts off buying his supply of coal until next winter is taking a great risk of getting none."

THE LABOR SITUATION

Have you ever stopped to think, for instance, how many men going from one State to another, from factory to factory, from mines of different kinds, to coal, copper, silver, asbestos, and other mines are out of work, from on an average of 3 days, to a month, sometimes longer? This observation is made by a writer in a Baltimore paper. These men," he says, "and women, counted up by the loss and gain of all the factories and mines, or different companies, would amount to within 5 or 10 million people who are at work every day.

"This is where your great shortage of labor comes in, which is caused by the chronic floaters of the country, spreading rumors everywhere he goes, about getting better wages in such and such a place. They keep the population on the move, never getting them anything, or anywhere, but simply paying big traveling expenses; maybe getting from bad to worse than bad.

"Its not the high wages so much as the propaganda that is spread. The most intelligent people are ready believers in such rumors because they have had no experience of the same. Shortly after the earthquake in San Francisco, the Governor of that State, or some one with authority, notified the Pittsburgh Government to publish that San Francisco of the State of California was over run with labor, and it was bad for some people."

MEXICAN SITUATION

President Carranza is a virtual prisoner on a railway train between Apizaco and Esperanza. Rebel emissaries are on their way to present demands. Mexican revolutionists are in effectual control of nearly the entire republic. American warships reached Mexican waters, ready if necessary, to take off Americans.

General Aguilar, son-in-law of Carranza, and General Murguia, former Carranza commander in Mexico, ress was unprecedentedly rapid and are said to have been executed, following reports of Murgias slaughter of political prisoners in the capital.

Mazatlan, Monterey, Vera Cruz, Tampico and Puebla are reported to be in complete control of the revolutionists.

The most notable thing about the Mexican revolution is the ease with which success was achieved. From the moment that the insurrectionary movement was launched by the State of Sonora a few weeks ago its progress was uninterrupted. Had Carranza held a firm grip on the military forces which he nominally commanded, or had his administration been supported by any considerable body of public sentiment, it must have encountered a vigorous and determined resistance, but no such resistance developed. One State after another hastened to follow the Sonora lead, and the supposedly loyal troops by which the government should have been defended lost no time in repudiating their allegiance and in joining the ranks of the revolutionists.

"BLUEBEARD" SENTENCED

Confessed Slayer of Eight Wives Near Collapse When He Faces Judge

Los Angeles, May 11.—"Bluebeard" Harvey, or Watson, who had confessed to the murder of eight wives, was almost in a state of collapse yesterday when, his legs so wobbly that they almost refused to bear his weight, he was led into court to hear life sentence imposed.

Sitting hunched in a chair, his head bowed as if for the first time he was realizing the enormity of his crimes, the muti-wife murderer and arch criminal listened white-faced as the court said:

"James P. Watson, I sentence you to San Quentin Prison for the term of your natural life."

It was during the procedure previous to the actual passing of sentence that disclosure was made that "Bluebeard" had confessed to a total of eight wives whom he had murdered.

The murder for which he was sentenced was that of Nina Lee Delongy, whose mummified body he uncovered from a lonely grave several days ago at Coyote Wells, California.

One victim, whose name heretofore was unrevealed, was Marie Austin, whom "Bluebeard" has confessed to beating to death with a rock, burying the body in Lake Coeur d'Alene, Idaho.

OPPOSES INCREASE

Attorney General's Tactics Scored as Increased Appropriation is Denied

The House refused to increase the appropriation for the Department of Justice yesterday, defeating an amendment offered by Representative Byrns of Tennessee, to increase the amount from two million to twenty-five million. Republicans charged that Mitchell Palmer, Attorney General, had accomplished nothing in his campaign against the high cost of living and alien radicals for which the greater part of $2,600,000 has been spent this year.

IDENTIFIES KELLY

Said to be One of the Bandits Who Made Descent Upon Sandy Spring Bank

John Kelly, alias "Irish Patsy," arrested in Philadelphia Saturday, has been identified by Francis Miller, assistant secretary of the First National Bank of Sandy Spring, as one of the bandits who perpetrated the Sandy Spring Bank hold-up, in which $150,000 was stolen and Director Francis M. Hallowell was shot to death, on April 26.

"What makes you positive Kelly is one of the bandits?" Miller was asked, after he had pointed him out of a group of seven men at police headquarters in Philadelphia.

"Why, I looked at him and down the barrel of his pistol for several minutes on the day of the robbery," replied Miller. "He helped 'stick-up' teh director's room while his pals went through the vault."

"THEY LOOK LIKE NEW!"

Why, my dear sir, they ARE like new except that you had them made over in a repair shop instead of getting them from a factory through a shoe shop. The uppers are perfectly good, almost as good as the day you got them, and now we've made the lowers—the soles and heels—good. Therefore shoe repairing, our way, pays and pays BIG.

LAWYER IN PERIL

Wins Life in Five Minute Plea to Burglar Who is Bent on Slaying Him

Philadelphia, Pa., May 11.—William G. Thomson, lawyer and wealthy clubman, attacked in his apartment in the St. James Hotel by a burglar early Saturday, made so strong an appeal for his life that the desperado spared him. Mr. Thomson had been surprised and blackjacked into unconsciousness. When he regained his senses his assailant was covering him with a revolver.

"I knew my life was at stake, so I summoned all my faculties and had a five minute talk with the man," said Mr. Thomson. "He said he was determined to kill me because he knew I would call for help as soon as he left. I gave him my word I would not give the alarm for ten minutes. He evidently believed me, as he ripped off the telphone receiver, locked me in the room and disappeared."

Later there was a call to the hotel office from the fourth floor, evidently from the intruder. A voice said:

"Man on the twelfth floor needs attention." Employees found Mr. Thomson covered with blood from a wound in his head. He soon received medical attention and will recover.

FIFTEEN GENERALS SLAIN

El Paso, Texas, May 11.—General Francisco Murguia, Carranza military commander at Mexico City, before leaving the capitol, which it in complete possession of revolutionary forces, carried out a wholesale slaughter of political prisoners at Santiago, the military prison, according to a bulletin issued at revolutionary headquarters here last night.

Fifteen Mexican generals were among those reported slaughtered. "The city was shocked over this bloody epilogue for the Carranza regime," the report said.

STREET SPEAKERS JAILED

Labor Leaders Take 30 Days Rather Than Pay $100 Fines

Pittsburgh, Pa., May 11.—Six men, who yesterday attempted to speak at a street meeting of the national committee of iron and steel workers and the American Civil Liberties Union in Duquesne, a steel town near here, were yesterday sentenced to serve 30 days in the Allegheny county jail. An option of $100 fine was rejected.

In 2000 Counties This Spring

The Forces of the Church of Christ Will Gather to Face the Facts.

In 2000 counties in 36 states the pastors and laymen of 30 great denominations will meet in conference this spring.

It is the kind of conference that generals hold before a critical engagement, that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. The charts and maps will amaze you. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys the program of the Interchurch World Movement is being built.

What the Movement Is.

This movement is a clearing house for the activities of the "forward movements" of 30 denominations. It is the basis of co-operation for the churches of America in a mighty effort to face the facts revealed in the surveys which are being conducted by the movement.

You, as a minister of the Gospel, or earnest layman vitally interested in the upbuilding of God's kingdom on earth, should know the task which lies ahead and the part which the Inter-church World Movement is to play in facing the situation.

Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

THAT KNIFE-LIKE PAIN

Is Only One of Nature's Warnings of Weak or Disordered Kidneys

Have you a lame back, aching day and night? Do you feel sharp pains after stooping? Are the Kidneys sore? Is their action irregular? Use Doan's Kidney Pills—the medicine recommended by so many Alexandria people. Read this case:

'Mrs. A. M. Madison, 323 North Royal street, Alexandria, says: "I was so bad off with kidney complaint I had to go to bed. My back hurt me as though I were being pierced with a sharp knife. I couldn't turn from one side to the other, but was just helpless. When I was able to get up around at all I had to have help to do everything. I couldn't even lace by own shoes, and I was so nervous my hands would shake like a leaf when I tried to hold anything. The way my kidneys acted showed they were in bad shape. I got Doan's Kidney Pills at Creighton's Drug Store and I was certainly filled with joy before I had used them very long. The misery left me and I felt like my self again."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Madison had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

A NEWY

Hugh P. Powell, of Richmond, was elected president for the year, without opposition. The officers and delegates to the national convention are: Hugh P. Powell, of Richmond, president; H. L. Smith, Petersburg, first vice president; Leroy Charles, Newport News, second vice president; H. L. Harwood Richmond, secretary treasurer.

Heavy May frosts have done a great deal of damage to fruits and crops on the Eastern Shore of Virginia. The heaviest frost in this immediate section was on the night of the 6th, when it was cold enough to freeze ice forming on the still waters in many places. In consequence of these late frosts the strawberry crop in this section will be almost a total failure. Many farmers who had from ten to twelve acres in straw-

"Gets-It" Stops Pain Immediately and Corns Go Quick.

The way to handle corns is the tried and proved "Gets-It" way—the way that millions have found quickest, easiest, safest and most reliable.

A few drops of "Gets-It" knocks the hurt out of any corn at once and soon loosens it so it lifts right off without any feeling. Oh what comfort! How grand to walk and dance and jump without a single twinge! Why not?
